Our current world is demanding a lot from people and organizations

We all are human beings with our own patterns and we can sometimes feel shaky in these times. However, as systemic facilitators, we need to be solid and grounded in our systemic facilitatorship – now more than ever. And what more is asked of our skills?

- How can we, as systemic facilitators, contribute to the individual, organizational and societal transformations that are taking place right in front of us?
- How we can be both part of the transformation and be available as a facilitator?
- What new shapes, experiences and skills want to emerge?
- Can we allow the next upgrade of ourselves and our systemic facilitation skills?

It is about time that we meet each other!

Join us on MAY 12&13, 2023 in the Netherlands for an inspiring congress for systemic facilitators and let's (re)connect, resource and be nourished!

In all the movements, transformations and complexity we feel the longing for timelessness. The congress Timeless in the We will make the container for that. For you. For us. For we.

- Experience a timeless environment where we can breathe and re-source
- Choose from more than 25 workshops and join 5 workshops from the personal, organizational or societal field
- Enjoy a beautiful location, music, art, great food and a great party on Friday night

Extra booking

Interesting and inspiring 1-day masterclasses with Jan Jacob Stam, Barbara Hoogenboom & Yvonne Lonis and Marion Latour in the 2 days prior to the congress. More information and prices will follow.
